Yurei Through-Table Co-Working Desk Lamp By Konzept Lighting

Description

The Yurei Through-Table Desk Lamp, named after the Japanese word for ghost, is available with a beautiful selection of unique translucent shades that embody the spirit of its name. Metal shades are also available for a bolder look, as well as a shadeless option or an acoustic felt panel to dampen ambient noise in shared spaces. Embodying a sense of otherworldliness, the Yurei is the perfect touch of mystique and style for any commercial or residential interior setting. The shade is easy to attach or remove for switching it out if desired, and the through-table mounting (max 1.3 inch thickness) allows for seamless installation on a desk or conference table. Not only chic in appearance, this lamp is packed with functional features. Its impressive 9 inch large light panel optics emit a soft, high-quality diffused light. The height is adjustable via its telescoping stem and a convenient button on the stem provides continuous dimming, for precise control of light intensity and positioning. The stem also has a built-in USB-C port for charging your phone or other devices. Designed with sustainability in mind, the Yurei is made of over 95% recyclable materials which makes it an excellent choice for organizations looking to reduce their environmental impact. Note: The Black and Gold metal and Charcoal Acoustic shades are only available with the Matte Black base finish, and the Matte White and Light Marble Acoustic shades are only available with the Matte White base finish.
