## Halston Ceiling Light By Troy Lighting

### Description

The striking silhouette of the Halston Ceiling Light hovers between the earthy and ethereal, the icy and molten. Both a functional flush mount and a work of art, this design-forward fixture seems to drip from the ceiling pan as if it were laden with light. The cast piastre glass lends an otherworldly texture, with a striking concentric ring pattern visible from below. Warmed by the lustrous Patina Brass framework, Halston transcends the ordinary with its captivating glow. Dimmable via Triac or electronic low voltage (ELV) dimming.
