Hashira Ceiling Light

By Audo Copenhagen

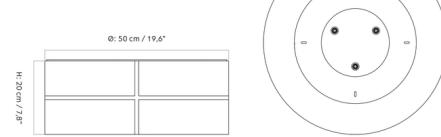

Description

The Hashira Ceiling Light diffuses light through its round, raw linen shade. The translucent textile not only acts as a diffuser, but it also enhances the softness of an interior acoustically as well as tactiley. Norm Architects were inspired by Japanese paper lanterns when they created the ceiling light for Audo Copenhagen. A meeting of East and West, the new Hashira Ceiling Lamp is an understated design that profiles the same characteristic textured raw linen shade and ambient light albeit in a round form.

Shown in black / raw linen
