Crisp Color Select Trimless Ceiling Light By Maxim Lighting

Description

High performance and high in style, the Crisp Color Select Trimless Ceiling Light is designed as a surface mount that installs into a variety of 4-0 junction boxes while boasting a recessed appearance. The fixture almost impossibly slopes into the junction box with snap in trims. Not only good-looking, the ceiling light also delivers over 1000 lumens providing ample lighting. With its concave design, the light source is concealed from the finished ceiling surface reducing glare. 5CCT (2700K, 3000K, 3500K, 5000K) selectable with an accessible switch behind the faceplate so you can set your preferred light temperature without removing the light from the junction box. Dimmable via Triac or electronic low voltage (ELV) dimming. Note: Mud Kit accessory available, sold separately.
