Truline Trim 1.6A Tunable White 24VDC LED System

By PureEdge Lighting

Description

The TruLine Trim 1.6A is a recessed 24VDC LED system that features a paintable half-inch trim. The slim channel extrusions recess within any flat surface, including 5/8 inch drywall, tile, and millwork, eliminating the need for stud or joist modification. The channel, LED strips, and lenses are field-cuttable and ordered in 1' increments (up to 40' before re-feeding), providing flexibility and unparalleled ease of installation. Truline Trim 1.6A with Tunable White 2000K-6500K (2K6K) grants independent control and adjustment of color temperature and intensity from 2000K (Sunset) through 6500K (Day Light White). Tunable white lighting visually, biologically and emotionally contributes to human interaction with the physical world. Human centric lighting (HCL) builds on this technology bringing the dynamics of natural daylight indoors, and delivering a positive effect on human health, wellbeing and performance. 24VDC Remote Power Supplies are required and sold separately. Coordinate installation with electrical and drywall contractors.

Specifications

COLOR N/A
BODY FINISH White
WATTAGE 30W
DIMMER Low Voltage Electronic
DIMENSIONS 72"L x 2.82"W
INTEGRATED LED MODULE 6 x LED/5W/24V LED

Technical Information
