Truline Trim 1.6A Warm Dim 24VDC LED System

By PureEdge Lighting

Description

The TruLine Trim 1.6A Warm Dim is a recessed 24VDC LED system that features a paintable half-inch trim. The slim channel extrusions recess within any flat surface, including 5/8 inch drywall, tile, and millwork, eliminating the need for stud or joist modification. The channel, LED strips, and lenses are field-cutttable and ordered in 1' increments (up to 20' before re-feeding), providing flexibility and unparalleled ease of installation. Truline Trim 1.6A with Warm Dim technology mimics an incandescent atmosphere by decreasing the color temperature as you dim. Our Warm Dim strips can be dimmed all the way down to a soothing amber hue at 1800K, reminiscent of candlelight. Coordinate installation with electrical and drywall contractors.

Specifications

COLOR N/A
BODY FINISH White
WATTAGE 40W
DIMMER Low Voltage Electronic
DIMENSIONS 48"L x 2.82"W x 0.625"H
INTEGRATED LED MODULE 4 x LED/10W/24V LED
