Magma Wall Sconce

By Tala

Description

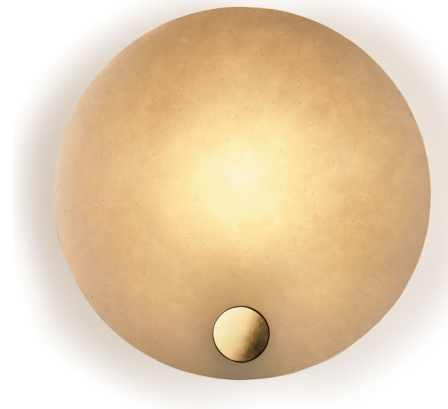

The Magma Wall Sconce features an upcycled glass diffuser made of repurposed solar panels for a more sustainable alternative to alabaster with a unique optical quality. The diffuser disc shields a custom Dim to Warm LED light bulb, which warms in color temperature from 2800K to 2000K as the bulb is dimmed. The diffuser is supported by a sleek brass frame which also provides an understated decorative accent.
