Magma Wall / Ceiling Light

By Tala

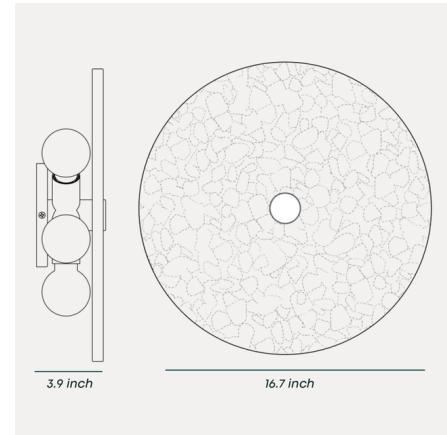

Description

The Magma Wall / Ceiling Light features an upcycled glass diffuser made of repurposed solar panels for a more sustainable alternative to alabaster with a unique optical quality. The diffuser disc shields a group of custom Dim to Warm LED light bulbs, which warm in color temperature from 2800K to 2000K as the bulb is dimmed. The diffuser is supported by a sleek brass frame which also provides an understated decorative accent. May be installed on the wall or ceiling.

Shown in brass / polar white
