Victory Floor Lamp

By Lumen Center Italia

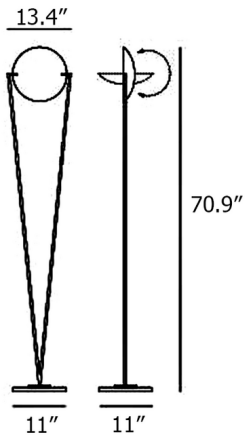

CE

Description

Originally designed in 1984, the Victory Floor Lamp is characterized by its open V-shaped frame, which gives the fixture an open, airy aesthetic. The V is an archetypal form of the Modernist design movement, and it also recalls the shape of a trophy. Victory is capped with an adjustable shallow dome with an integrated LED light source, which can be tilted to direct the light either upwards or to the side. Foot dimmer switch located on cord.

Shown in polished brass

Specifications
