## Ceramique Table Lamp

By FLOS

### Description

Infuse your space with charming elegance and versatile functionality courtesy of the Flos Ceramique Table Lamp, designed by Vincent Van Duysen. This exquisite fixture showcases a beautifully crafted ceramic body, offering a tactile and natural aesthetic. The lamp's defining feature is its bell-shaped head, which can be precisely pointed Up, Down, or to the Side, allowing for targeted illumination to suit any need. A protective polycarbonate diffuser within the head shields the light source, ensuring a gentle, warm glow. With a convenient dimmer switch located on the cord, the Ceramique Table Lamp offers complete control over its ambiance, making it a truly adaptable and delightful addition to any setting where refined light and sculptural form are desired.
