Ceramique Table Lamp

By FLOS

Description

Infuse your space with charming elegance and versatile functionality courtesy of the Flos Ceramique Table Lamp, designed by Vincent Van Duysen. This exquisite fixture showcases a beautifully crafted ceramic body, offering a tactile and natural aesthetic. The lamp's defining feature is its bell-shaped head, which can be precisely pointed Up, Down, or to the Side, allowing for targeted illumination to suit any need. A protective polycarbonate diffuser within the head shields the light source, ensuring a gentle, warm glow. With a convenient dimmer switch located on the cord, the Ceramique Table Lamp offers complete control over its ambiance, making it a truly adaptable and delightful addition to any setting where refined light and sculptural form are desired.
