Stagger Shelf By Ferm Living

Description

The Stagger Shelf captures the essence of minimalist design with its clever configuration of rectangular panels creating a staggered formation that breaks the mold of conventional, linear structures. The shelf is made of oak veneer over an MDF core and provides a stylish and functional space to display or store objects. The weight capacity of the shelf is 3.3 lbs, provided it is installed with the proper screws/hardware for the type of wall.

Shown in oiled oak
