Float Scraplights Pendant

By Graypants

Description

The Float Scraplights Pendant offers a dome-shaped silhouette that is handmade from corrugated cardboard for a rich texture. An integrated LED within the dome directs light downward, while the openings in the cardboard allow some light to escape outwards to create a pleasant, ambient glow. The Natural and Blonde finishes are made of recycled cardboard and cut with a laser, which leaves a subtle burn patina around the edges. The White finish is made of new cardboard cut with a knife to retain the pristine white edges. Each pendant is assembled by hand with non-toxic adhesives and treated with a non-toxic fire retardant.

Shown in white / blonde

Specifications
