PH 2/2 Luna Table Lamp

By Louis Poulsen

Description

Originally designed by Poul Henningsen in 1939, the PH 2/2 Luna Table Lamp was originally named The Night Stand Lamp. Over 80 years later, Luna remains perfectly suited for use on a bedside table, as well as side tables, desks, and more. The lamp is instantly recognizable thanks to its curving, moon-shaped stem and three-tiered glass shade. The lamp head can be angled up to 45 degrees to direct its light for reading and other tasks, and a convenient on/off switch is located on the base.

Specifications

COLOR Pale Rose
