Totem Puck Wall / Ceiling Light

By Pablo

Description

Inspired by the softly curved forms of its table lamp and pendant counterparts, the Totem Puck Wall / Ceiling Light is a versatile fixture that will seamlessly integrate into any interior. Totem Puck provides pleasant, warm illumination from its integrated LED, which is shielded by a metal faceplate and polycarbonate diffuser to reduce glare. The fixture's compact form is perfect for lining hallways, bathrooms, or bedrooms in hospitality and residential spaces alike. ELV, TRIAC or 0-10V dimmable. CCT select allows the color temperature to be set to 2700/3000/3500K during installation. Note: Dove Grey, Matte Black, and Matte White colored faceplates are only available with matching canopy finish. Brass and Walnut Essence painted faceplates are available with all canopy finishes.

Specifications
