Lafayette Credenza

By Arteriors Home

Description

The Lafayette Credenza adds interest and charm with its unique shape. The cabinet's face features figural ofram veneer in chateau gray, creating a striking sunburst design. This is balanced by a contrasting horizontal pattern on the top. The bronze brass hardware serves as a focal point, enhancing the piece's appeal. A metal parting rail wraps around the cabinet, and each storage space includes one removable shelf inside.

Shown in chateau gray / brass
