## Relic Wall Sconce

By CTO Lighting

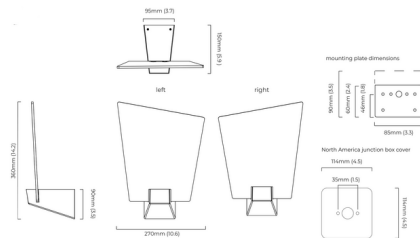

## Description

The Relic Wall Sconce offers a bold, modern aesthetic with its angular arm and asymmetrical shade in alabaster or artisan kiln glass. The shade is illuminated by an integrated LED to create a bright but soft glow against the wall. The chamfered angles of the arm aid in light refraction and give the fixture a bold, sculptural expression. Includes 4.5 inch square backplate for standard US junction box (not pictured).

Shown in antique bronze / honed alabaster

## Specifications
