A.I. Console Table

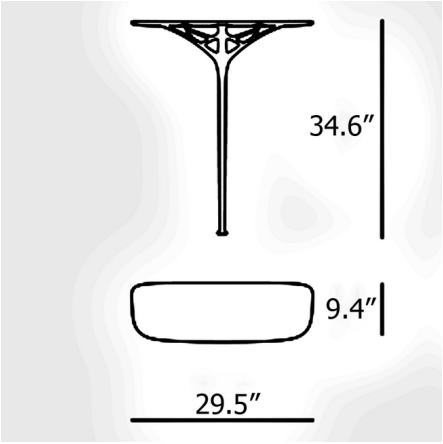

By Kartell

Description

The A.I. Console Table offers a unique aesthetic with a strong, graphic character that will enhance a foyer or hallway with modern elegance. The table anchors to the wall with the included mounting screws, allowing it to stand on a single leg for a bold expression. The shape of the A.I. Console Table was created by artificial intelligence with input from designer Philippe Starck, and it is constructed from recycled thermoplastic technopolymer, making it both lightweight and sustainable.

Shown in rusty orange
