Angelo Stone Table Lamp

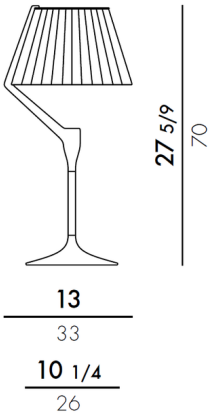

By Kartell

Description

While the Angelo Stone Table Lamp features a traditional shade and stem silhouette, it offers a unique lighting method compared to traditional table lamps. Instead of housing a light bulb within the shade, the LED light source is located within the lamp's stem and shines upward into the translucent thermoplastic shade. A reflector on top of the shade reflects light back outwards to produce pleasant, warm illumination with minimal glare. Dimmer switch located on cord.

Shown in copper / white
