Millimetro Wall Light

By Luceplan

Description

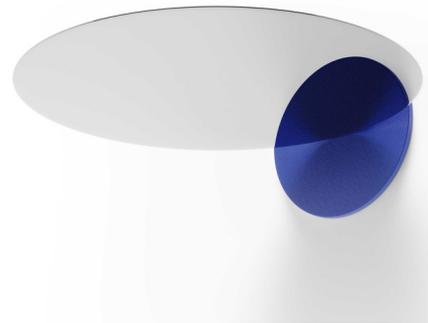

The Millimetro Wall Light features an aluminum panel polished to a nearly mirror-like finish which rests perpendicularly to the wall. An integrated LED light source on top of the disc directs light upward, creating a warm atmosphere while reducing unpleasant glare. The disc's mirrored finish creates the illusion of the fixture floating in air to create an intriguing interplay of light and perspective. Phase dimmable at 120V / 0-10V dimmable at 277V. Note: White finish is paintable.

Specifications
