## Comfort Circle Extension Dining Table By Umage

## Description

The Comfort Circle Extension Dining Table will invite conversation in the dining room with a circular design that directs everybody to the center of the table. The table includes extension plates to expand the table into an oval shape with space for up to 10 people. The center of the table can be raised, both when extended and not extended, to provide a slightly elevated pedestal for decorations, a floral centerpiece, or serving dishes. The wood veneer top is supported by by solid oak legs, available in a smooth texture for a neat, tailored look or with a rippled texture for a tactile accent.

Shown in dark oak
