## Glacier Tiered Chandelier By Z-Lite

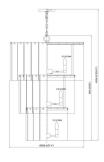

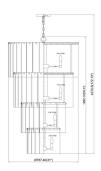

## Description

An inspired blend of old and new plays out in the artful impact of the extraordinary Glacier Tiered Chandelier. The chandelier features a cascade of clear textured glass panels that emulate melting ice, an incomparable effect with dramatic impact in a foyer, dining room, or main living area. Modern finished steel is placed as a crown frame, adding a consistency in palette and motif and embellishing with a blend of glam and industrial ambiance. Note: Due to the weight of the fixture, additional ceiling support is required.

Shown in modern gold / clear
