Illan Wall Sconce

By Luceplan

Description

The Illan Wall Sconce was created with the concepts of technological innovation and sustainability while also offering an elegant aesthetic. The sconce is composed of an aluminum body which mounts to the wall surrounded by thin strips of flexible, laser cut plywood. The wood is obtained from surplus scraps created during production of the larger Illan Pendant to give new purpose to a waste material. The sconce houses an integrated LED light source which directs light upward for a warm, ethereal glow.

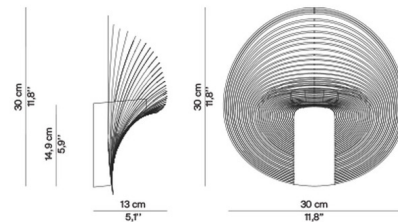

Shown in birch

Specifications

COLOR N/A
BODY FINISH Birch
