Freeline Linear Pendant

By Fabbian

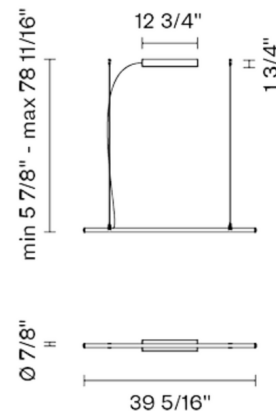

Description

The Freeline is an essential linear pendant that provides adjustable direct or indirect illumination for residential and contract applications. The low-profile (less than 1 inch in diameter!) grooved rod houses the linear LED lighting element. Suspended from aircraft cables and connected with adjustable clamps, the rod can easily be rotated to change the direction of the light. TRIAC dimming. Note: The floating driver canopy provides mounting flexibility when the junction box location is not ideal. Includes cover plate for U.S. junction box (not shown in line drawing).

Shown in bronze

Specifications
