Acustica Pendant

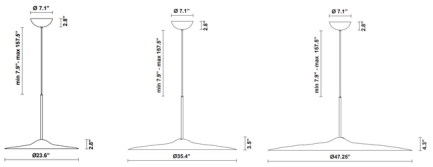

By Fabbian

Description

In a simple twist of irony, Acustica draws inspiration from a drum cymbal, the antithesis of auditory comfort. The large and thin lampshade is designed to absorb surrounding sounds and create a high level of acoustic comfort. Acustica is an ideal solution for luxury offices and large waiting areas requiring refined design and acoustic solutions. Recycled PET shade, black anodized aluminum structure and PMMA diffuser.Acustica pendant shades can adjust from level to inclined positions for dynamic and creative arrangements around its central fixed light source.

Shown in black anodized / honey
