VL45 Radiohus Portable Table Lamp

By Louis Poulsen

Description

The VL45 Radiohus Portable Table Lamp was inspired by Vilhelm Lauritzen's 1940s pendant design, which he created for the Danish Broadcasting House also known as Radiohuset. The mouth-blown opal glass globe shade gives the lamp a sophisticated, streamlined look and produces a pleasant ambient glow. VL45 includes a built-in light source, dimmer, and rechargeable battery which allows the lamp to be placed wherever it is needed. The light source warms in color temperature from 2700K to 1800K as the lamp is dimmed, and the dimmer offers both continuous and 4-Step (100% / 45% / 20% / 5%) modes.

Specifications
