QB Wall Light

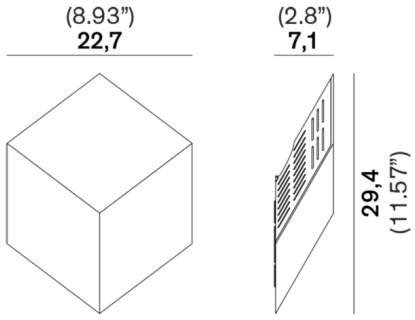

By Rotaliana by Luminart

Description

The QB Wall Light makes use of an optical illusion for a unique aesthetic that will add a modern edge to any interior. While the sconce appears to be cubic in shape when viewed from afar, it actually only projects a few inches from the wall, creating the illusion of depth. QB houses an integrated LED light source, which bathes the wall in warm light. Includes 4 inch backplate to mount to standard US junction box.

Shown in bronze
