Tobu Floor Lamp

By Rotaliana by Luminart

Description

With a shape reminiscent of traditional torches, the Tobu Floor Lamp was designed for spaces with high ceilings such as museums, theatres, and even some residences. The lamp is topped with a pair of cylindrical shades, each housing an LED light source, which can be rotated independently to aim their light upwards at artwork or architectural features. A dimmer switch on the bottom of each cylinder allows the two lights to be dimmed independently.

Shown in matte black

Specifications

COLOR N/A
