Sol Floor Lamp

By Rotaliana by Luminart

Description

The Sol Floor Lamp features a rounded disc enclosing a pair of LED light sources supported by a sleek vertical stem. The LEDs direct light both upward and downward, and each direction can be dimmed independently with a pair of switches on the stem. A grid reflector within the disc reduces glare and aids in light distribution. Sol's excellent lighting performance and sleek, minimalist aesthetic are suitable for a wide range of applications.

Shown in graphite / matte gold reflector
