Jura Wall Sconce By Troy Lighting

Description

The Jura Wall Sconce explores the interaction between soft and hard edges, drawing inspiration from the serene Scottish beaches of Islay and Jura. Mirroring the serene curves of the coast against the rugged hills of the surrounding landscapes, the matte ceramic backplate is juxtaposed with a rectilinear Patina Brass bar containing the LED. When in use, the light bounces off the cloud-like dish, creating a glare-free glow. TRIAC and ELV dimming.

Shown in patina brass / white
