Laken Chandelier

By Troy Lighting

Description

Designed to make an impact on large ceilings, the Laken Chandelier features a voluminous architectural shade. The artisanal jute-wrap technique gives the fixture its rich texture and warm color variance. Inside, a pinwheel cluster of lights emits powerful illumination. Laken is finished with metalwork, adding an antiqued quality that complements the rustic nature of the jute. NOTE: Due to the one-of-a-kind nature of the medium, exact colors and patterns may vary slightly from the image shown.

Shown in patina brass / jute

Specifications
