## Nairn Table Lamp

By Troy Lighting

### Description

Taking inspiration from the rugged Moray coast in Scotland, the Nairn Table Lamp is designed from a 3-D scan of a sculpture by Chandler McLellan. The asymmetric base stems from the artist's appreciation for natural stones that lean, sometimes impossibly, against each other. Playing with positive and negative space, a distinctive cut-out accents one form, creating a moment of drama within the balanced composition. The oblong shapes are complemented by a natural wicker shade and French wiring. On/off switch on socket. Note: The Nairn is French wired and the power cord exits the lamp on the stem instead of the base (see installation instructions for illustration).

Shown in bone / natural wicker
