## Montrose Chandelier

By Palecek

### Description

The Montrose Chandelier brings an elegant glam to your interior space. The finished aluminum frame holds varying sizes of sliced Alabaster panels that reflect warm shadows of light across your room. Alabaster is natural material that is sourced from a rare mineral created from a metamorphic rock formation process. The white smoke color is natural and will slightly vary in color and grain, no two pieces will be alike. Note: Due to the weight of this fixture, additional ceiling support is required.

Shown in antique brass / alabaster
