Montrose Wall Sconce

By Palecek

Description

The Montrose Wall Sconce brings an elegant glam to your interior space. The finished aluminum frame holds varying sizes of sliced Alabaster panels that reflect warm shadows of light across your room. Alabaster is natural material that is sourced from a rare mineral created from a metamorphic rock formation process. The white smoke color is natural and will slightly vary in color and grain, no two pieces will be alike.

Shown in antique brass / alabaster
