SuperWire Floor Lamp By FLOS

Description

Experience the commanding yet understated presence of the SuperWire Floor Lamp, a design that effortlessly marries minimalist form with powerful illumination. This lamp features a distinctively simple, essential silhouette, drawing immediate attention with its elegant verticality. Encased within its slender profile is a hexagonal glass diffuser that ingeniously houses integrated LED strips, providing a beautifully warm, homogenous light along the entire length of the lamp. The SuperWire Floor Lamp stands proudly on a robust aluminum tripod base, a thoughtful nod to the iconic mid-century Luminator lamp. A convenient dimmer switch located on the cord allows you to precisely control its luminous intensity, creating the perfect ambiance for any setting, from focused task lighting to a soft, ambient glow.
