SuperWire Table Lamp
By FLOS

Description

Discover the captivating blend of simplicity and presence in the SuperWire Table Lamp. This striking fixture features a clean, essential silhouette that brings a commanding visual element to any surface. At its heart, a hexagonal glass base discreetly incorporates LED strips, emitting a wonderfully warm, homogenous light that spans the lamp's length. This distinctive hexagonal motif is cleverly echoed in the lampshade, which gracefully caps the lamp, adding a refined, decorative touch. The integrated dimmer switch on the cord provides effortless control, allowing you to fine-tune the lamp's radiant glow to perfectly suit your mood or task, making it both a functional light source and a modern art piece.
