Fanalet A/02 Outdoor Wall Sconce

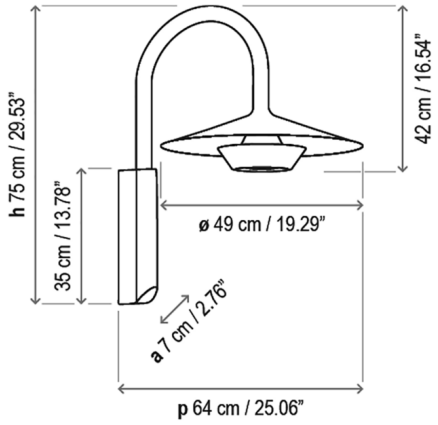

By Bover

Description

The Fanalet A/02 Outdoor Wall Sconce offers a blend of functionality and aesthetics that will complement a wide variety of spaces. Fanalet's wide, tapered shade is inspired by outdoor lanterns commonly seen in industrial environments. The fixture houses two light sources: a direct downlight and an indirect light source which shines upward into the shade and reflects outward. Each light source can be turned on/off and dimmed independently, allowing for a variety of applications to perfectly suit the space. Note: The sconce's canopy does not cover a standard 4 inch junction box; it requires a narrow junction box. The lamp head is IP-65 rated, and the rest of the fixture is IP-44 rated for protection against water splashes and dust. TRIAC dimmable.

Shown in graphite brown

Specifications
