Tulip Freestanding Multi-Light Pendant By Slamp

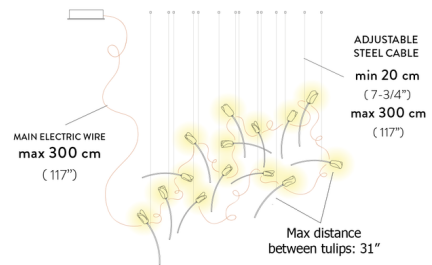

Description

The Tulip Freestanding Multi-Light Pendant is an elegant collection of hand-molded floating blossoms. It features almost invisible cables that suspend the flower, which bloom from curved Brushed Brass stems. Each tulip is connected to the next through a series of intricately woven copper wires conducting low-voltage electricity. The tulip pendants can be arranged as desired at various heights to best suit the space.

Shown in brass / prisma
