Unity 2 Gateway DMX IP Interface
By PureEdge Lighting

Description

The Unity 2 DMX Gateway Intelligent IP Interface offers versatile control over an extensive range of lighting and motor control devices through wired or optional wireless Ethernet connection. A unified solution', the Unity 2 DMX Gateway can handle a diverse array of lighting and motor control needs with a single unit, reducing the need for multiple controllers. Designed for plug-and-play operation, the Gateway simplifies the setup process and typically requires just one unit for most applications.Features:DMX-512-A-IP InterfaceUp to 32 DMX devicesTranslator between Platform and DMX connected devicesHosts unique device profile configuration with store/recall presetsIP addressed and configured. Firmware upgradeableOnboard web server with file sharing and auto discoverySupports bi-directional communicationmDNS auto discovery and SDDP capableWide compatibilityMajor system integrationFlexible connectivity
