Fragment Linear Pendant By Bomma

Description

The Fragment Linear Pendant is crafted from a material called Fragmentglass, composed of glass shards which have been melted down in a mold and meticulously hand-cut into rectangles. The shards come from glass pieces that have been rejected by Bomma's rigorous quality control as a way to reuse the wasted material. While imperfections from bubbles or trace elements such as iron are undesirable in some pieces, the Fragments Pendant intentionally showcases their unique variations as a dazzling visual texture. While the ratios of colored glass are carefully controlled, each pendant takes on a one-of-a-kind look due to the unpredictability of the melting process. Fragment is outfitted with a tunable white LED strip, which can be set to warm, relaxing 2000K color temperature to 4000K cool white for concentration and alertness. Note: The 3.5 inch wide canopy will not cover a standard 4 inch junction box. Requires additional ceiling support for fixtures weighing over 50 pounds.

Specifications

COLOR Black Fragmentglass
BODY FINISH
WATTAGE
DIMMER
DIMENSIONS
INTEGRATED LED MODULE

Technical Information

COLOR RENDERING
LAMP COLOR
LUMENS/WATT
LUMINOUS FLUX

Shown in brushed gold / black fragmentglass
