Ama Pendant

By Bomma

Description

The Ama Pendant features an oblong crystal diffuser and globe shaped LED light source that evokes the image of a mussel clutching a treasured pearl. The pendant's crystal portions are crafted through a process developed in-house by Bomma's skilled artisans in which layers of heated glass are gradually melted into a conical mold and then precisely cut into shape. This process results in a rich texture and slight irregularities and variations that indicate the piece's unique craftsmanship. Includes Universal driver dimmable with TRIAC, ELV and 0-10V dimmers.
