Spectra Table Lamp

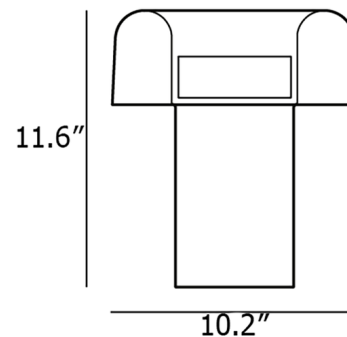

By Brokis

Description

The Spectra Table Lamp offers a modernized take on the classic table lamp silhouette, which has been refined down to the essential elements of a round shade and cylindrical base. The lamp's glass body creates intimate atmospheric effects as light from the LED light sources passes through it. Each lamp is composed of a glass structure with an aluminum light source in Black or Silver finish and an external dimmer case in Black or Silver. The dimmer controls the brightness as well as the direction of the light (up, down, or both).

Shown in black / smoke brown
