Emi Table Lamp

By FLOS

Description

The Emi Table Lamp features a triangular aluminum shade which directs light both upwards and downwards to create a dramatic display of light. The lamp is fitted with an anti-glare optical unit to reduce unpleasant glare and provide professional quality, comfortable lighting for domestic or hospitality use. The uplight and downlight can be independently dimmed using buttons located on the lamp's stem. Emi's shade is supported by a triangular, cast iron stem and base, completing the look with a repeated motif.
