Floating Forest Bridge

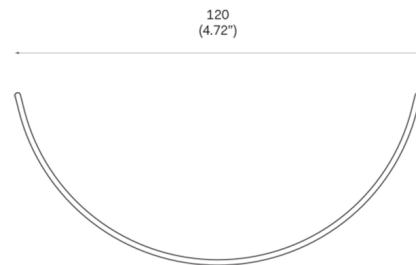

By Michael Anastassiades

Description

The Floating Forest is a collection of brass objects designed to be placed on top of a drinking glass to germinate seeds or fruit pits. Both the object itself and the sprouted seed provide an elegant decorative element. The Floating Forest Bridge is intended for use with acorns, walnuts, mangos, or avocados by suspending the seed just at the surface of the water. Includes brass object only; glass and seeds not included.

Shown in polished brass
