Porcelain D2 Wall Sconce

By Michael Anastassiades

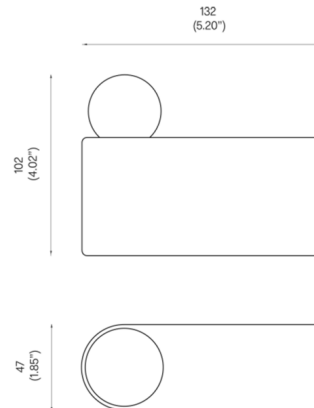

Description

Inspired by Bauhaus porcelain lights used in the 1930s, the Porcelain D2 Wall Sconce is made of slip-casted ceramic to provide a tough, resistant finish. The end result is a simple, elegant piece that creates a warm glow of light in any space. Due to the manufacturing process, each piece is unique, adding to the appeal. Includes paintable junction box cover for use in North America; not pictured.

Shown in white / opal
