Kup Pendant

By B.lux

Description

The Kup Pendant is a versatile, modular lighting solution that can be customized to fit a wide variety of spaces. The standard pendant is offered in two configurations with 6 lights. Additional modules of two lights each are sold separately, which can be attached to any of the pendant's end caps to extend the fixture. The cylindrical shades can be rotated along the slim tubular frame to aim the light precisely where it is needed, and an opal acrylic diffuser on each lamp prevents unpleasant glare.
