Flex Neon LRUDR8 Trucolor RGBTW Left/Right and Up/Down 24V

By PureEdge Lighting

Description

The LRUDR8 Flexible Neon TruColor RGBTW bends left and right or up and down with a 0.80 inch round lens that can be surface or flush-mounted. Flex Neon offers superior color quality and performance while creating uniform illumination without pixelation. Flex Neon is offered with both indoor and wet-rated junction boxes sold separately, which include a Pure Smart/WiZ Pro Bridgebox allowing for 5-Channel, full color, wireless control of the TruColor RGBTW Light Engine with the WiZ Pro Software Suite or Pure Smart Wi-Fi Room Controller (sold separately). A remote Power Supply is required and sold separately. Intended for use with the PSBR Power Supply for Remote Bridgebox (PSBR-96W sold separately). Pure Smart TruColor technology uses five channels of tunable LEDs, composed of RGBTW red, blue, green, and Tunable White (1500K-6500K). With precision-engineered, proprietary color mixing, we produce one of the widest, most accurate spectrums available, giving our customers access to the warm glow of the sunset (1500K-2400K golden hour) to the pure white light of the mid-day sun (5700K) and everything in between.NOTE: 5W5 option up to 20 feet max. 5W7 option up to 12 feet max.
