Snowflake Color-Select Island Light By Artcraft

Description

The Snowflake Color-Select Island Light is a masterpiece of elegance, featuring rock-style cut glassware that glistens like frosted crystals, illuminated by energy-efficient LED lighting. Delicate brass holders cradle each glass piece, all suspended from a matte black canopy that adds a dramatic contrast. Its thoughtful design includes a three way color-select switch, allowing you to choose between warm, neutral, or cool color temperatures (3000K, 4000K, 6000K), and the dimmable functionality lets you tailor the ambiance to perfection. The easily adjustable wires ensure a seamless fit for any ceiling height, making this chandelier as versatile as it is enchanting.
