Linden LED Mirror By Eurofase

Description

The Linden LED Mirror is a stylish addition to any bathroom with its oval silhouette and elegantly minimal L-shaped shelf. A thin LED strip runs parallel to the frame to direct light outwards, and a backlight adds a halo of light against the wall. The color temperature can be switched between 3000K / 4500K / 6500K to suit any environment. Buttons on the face of the mirror control the color temperature, on/off/dimming, and the built-in glass defogger.
