Gia Oval Color-Select Mirror

By Eurofase

DAMP

Description

The Gia Oval LED Mirror features an elegant, frameless mirror paired with an opal glass orb. A light source within the globe directs pleasantly diffused light outwards, while a backlight behind the mirror casts a halo of light against the wall. The color temperature can be switched between warm 3000K, neutral 45000K, or cool 6500K to suit any environment. Buttons on the face of the mirror control the color temperature, on/off/ dimming, and the built-in glass defogger.

Shown in mirror / opal
